Journal of Fluorine Chemistry, *48* (1990) 443 - 447

Subject Index of Volume 48

Acetic acid
  synthetic utility of 3-(perfluoro-1,1-dimethylbutyl)-1-propene: synthesis and properties of (perfluoro-1,1-dimethylbutyl) acetic and propionic acids and their salts, 77
Acetone
  exchange reaction, $>C=S \rightarrow >C=O$, using hexafluoroacetone, 99
Addition
  radical chain, of difluoramine to olefins, 309
  regioselective synthesis of 1-methyl-3-hydroxy-5-perfluoroalkylpyrazoles by, of methylhydrazine to perfluoroalkylacetylenic esters, 123
Alkenes, Olefins
  action of atomic F on E- and Z-2-butene, 331
  radical chain addition of difluoramine to, 309
  reactions based on tetradecafluorobicyclo[4,4,0]dec-1(2),6(7)-diene, 37
  reactions of hexafluoropropene trimers with thiols, 133
  solvolysis reactions of bis(difluoroamino)ethylenes: route to nitrenium ions, 319
  state-dependent photochemistry of highly fluorinated bicyclo[4.2.0]-octadienes, 353
  synthesis from 2,5-dichloro-1,1,1,6,6,6-hexafluoro-3,4-diazahexa-2,4-diene of 4H-3,5-bis(trifluoromethyl)-1,2,4-triazole and some 1- and 4-substituted derivatives, 147
  synthetic utility of 3-(perfluoro-1,1-dimethylbutyl)-1-propene: synthesis and properties of (perfluoro-1,1-dimethylbutyl) acetic and propionic acids and their salts, 77
  transition metal catalysed C–C-coupling reactions of 3,3,3-trifluoropropene, 229
Alumina
  introduction of SCF_3 into aromatic substrates using $CuSCF_3$ and alumina-supported $CuSCF_3$, 249
Amines
  radical chain addition of difluoroamine to olefins, 309
  syntheses and vibrational spectra of chlorofluoroamines, 361
  synthesis of fluorinated tertiary diamines and diazanes, 395
  synthesis of new perfluorotertiary amines containing geminal pentafluorosulphanyl, SF_5, groups, 407
Antibacterial evaluation
  and synthesis and ^{19}F NMR spectral studies of some new F-containing indole derivatives, 169
Aromatic compounds
  defluorination of hexadecafluorobicyclo[4,4,0]dec-1(6)-ene: facile synthesis of perfluoroaromatics, 29
  effects of fluorination on conformation and bonding in diphenyl sulphides, 45
  F-19 NMR spectroscopy of polychloropolyfluoronaphthalenes: identification of F exchange products, 7
  introduction of SCF_3 into aromatic substrates using $CuSCF_3$ and alumina-supported $CuSCF_3$, 249
  no-carrier-added (NCA)aryl[^{18}F] fluorides via nucleophilic aromatic substitution of electron-rich aromatic rings, 189
  perfluoroorganic Te compounds: syntheses of $C_6F_5TeTeC_6F_5$, $Hg(TeC_6F_5)_2$, $CF_3TeTeC_6F_5$, $CF_3TeC_6F_5$ and pentafluorophenylfurans, 207
  reactions of perfluoroaromatic compounds with ethereal solutions of methylmagnesium iodide in presence of Ag(I) and Cu(I) salts, 85
  regioselective synthesis of 1-methyl-3-hydroxy-5-perfluoroalkylpyrazoles by addition of methylhydrazine to perfluoroalkylacetylenic esters, 123
  relationships between ^{19}F substituent chemical shifts and electron popu-

© Elsevier Sequoia/Printed in The Netherlands

lations in *para* and *meta* substituted α-fluoro-Z-cinnamic esters, 281
syntheses from 2,5-dichloro-1,1,1,6,-6,6-hexafluoro-3,4-diazahexa-2,4-diene of 4H-3,5-bis(trifluoromethyl)-1,2,4-triazole and some 1- and 4-substituted derivatives, 147
synthesis of fluorinated tertiary diamines and diazanes, 395
synthesis, ^{19}F NMR spectral studies and antibacterial evaluation of some new F-containing indole derivatives, 169
synthesis and mesomorphic properties of p-(p′-n alkoxycinnamoyloxy) benzylidene-p″-halogen substituted aniline, 159

Bonding
effects of fluorination on conformation and bonding in diphenyl sulphides, 45
Bromine
and Cl; caesium fluoride-assisted reactions of *syn* and *anti* N-fluoro-1-cyano-1-fluoromethanimine with, 367

Caesium
caesium fluoride-assisted reactions of *syn* and *anti* N-fluoro-1-cyano-1-fluoromethanimine with Cl and Br, 367
Carboxylato complexes
of Zr(IV): formation of bis(heptafluorocarboxylato)Zr(IV) difluoride, 1
Carboxylic acids
N-containing: electrochemical fluorination of; fluorination of dimethylamino- or diethylamino-substituted carboxylic acid derivatives, 257
Chlorine
and Br; caesium fluoride-assisted reactions of *syn* and *anti* N-fluoro-1-cyano-1-fluoromethanimine with, 367
F-19 NMR spectroscopy of polychloropolyfluoronaphthalenes: identification of F exchange products, 7
reaction of 2,2-dichlorotrifluoro-1-iodoethane with Zn, 17
syntheses and vibrational spectra of chlorofluoroamines, 361
synthesis from 2,5-dichloro-1,1,1,6,-6,6-hexafluoro-3,4-diazahexa-2,4-diene of 4H-3,5-bis(trifluoromethyl)-1,2,4-triazole and some 1- and 4-substituted derivatives, 147
Copper
introduction of SCF_3 into aromatic substrates using $CuSCF_3$ and alumina-supported $CuSCF_3$, 249
reactions of perfluoroaromatic compounds with ethereal solutions of methylmagnesium iodide in presence of Ag(I) and Cu(I) salts, 85
Coupling reactions
transition metal catalysed C–C-, of 3,3,3-trifluoropropene, 229

Esters
preparation of ethyl 2-fluoroacrylate, CH_2=CFCOOEt, 151
regioselective synthesis of 1-methyl-3-hydroxy-5-perfluoroalkylpyrazoles by addition of methylhydrazine to perfluoroalkylacetylenic esters, 123
relationships between ^{19}F substituent chemical shifts and electron populations in *para* and *meta* substituted α-fluoro-Z-cinnamic esters, 281

Fluorides

Caesium fluoride-assisted reactions of *syn* and *anti* N-fluoro-1-cyano-1-fluoromethanimine with Cl and Br, 367
No-carrier-added (NCA)aryl[^{18}F] fluorides via nucleophilic aromatic substitution of electron-rich aromatic rings, 189
Polyfluoroalkoxysulphonyl fluorides, new, 107

di-

Carboxylato complexes of Zr(IV): formation of bis(heptafluorocarboxylato)Zr(IV) difluoride, 1

Fluorination

De-, of hexadecafluorobicyclo[4,4,0]-dec-1(6)-ene: facile synthesis of perfluoroaromatics, 29
Direct, of trimethylsilyl compounds; mechanism of, 345
Effects of, on conformation and bonding in diphenyl sulphides, 45

Electrochemical, of N-containing carboxylic acids: fluorination of dimethylamino- or diethylamino-substituted carboxylic acid derivatives, 257

Fluorine

Action of atomic F on E- and Z-2-butene, 331
F-19 NMR spectroscopy of polychloropolyfluoronaphthalenes: identification of F exchange products, 7
And hydrogen nitrate: rotational barriers and resonance structures, 379
Relationships between ^{19}F substituent chemical shifts and electron populations in *para* and *meta* substituted α-fluoro-Z-cinnamic esters, 281
Synthesis, ^{19}F NMR spectral studies and antibacterial evaluation of some new F-containing indole derivatives, 169

Fluoro-compounds

Caesium fluoride-assisted reactions of *syn* and *anti* N-fluoro-1-cyano-1-fluoromethanimine with Cl and Br, 367
Defluorination of hexadecafluorobicyclo[4,4,0]dec-1(6)-ene: facile synthesis of perfluoroaromatics, 29
Introduction of SCF_3 into aromatic substrates using $CuSCF_3$ and alumina-supported $CuSCF_3$, 249
Perfluoroorganic Te compounds: syntheses of $C_6F_5TeTeC_6F_5$, $Hg(TeC_6F_5)_2$, $CF_3TeTeC_6F_5$, $CF_3TeC_6F_5$ and pentafluorophenylfurans, 207
Preparation of ethyl 2-fluoroacrylate, CH_2=CFCOOEt, 151
Quadruply bonded dimolybdenum complexes of PF_2S_2: comparison with complexes of PR_2S_2- (R = Et, Me), 429
Reactions based on tetradecafluorobicyclo[4,4,0]dec-1(2),6(7)-diene, 37
Reactivity of (2-F-alkyl ethylthio)methanols: synthesis of new cationic surfactants, 239
Relationships between ^{19}F substituent chemical shifts and electron populations in *para* and *meta* substituted α-fluoro-Z-cinnamic esters, 281
State-dependent photochemistry of highly fluorinated bicyclo[4.2.0]octadienes, 353
Structure of Na_2SnF_6, 219
Syntheses and vibrational spectra of chlorofluoroamines, 361
Synthesis from 2,5-dichloro-1,1,1,6,6,6-hexafluoro-3,4-diazahexa-2,4-diene of 4H-3,5-bis(trifluoromethyl)-1,2,4-triazole and some 1- and 4-substituted derivatives, 147
Synthesis of fluorinated tertiary diamines and diazanes, 395
Synthesis of new perfluorotertiary amines containing geminal pentafluorosulphanyl, SF_5, groups, 407

di-

Abbreviated route to difluoromaleic anhydride, 339
Difluoromethanesulphonic acid: two-step route to free acid from monohydrated sodium difluoromethanesulphonate, 293
Radical chain addition of difluoroamine to olefins, 309
Solvolysis reactions of bis(difluoroamino)ethylenes: route to nitrenium ions, 319

tri-

Reaction of 2,2-dichlorotrifluoro-1-iodoethane with Zn, 17
Some reactions of trifluoromethanesulphonic anhydride with various metal substrates, 421
Transition metal catalysed C–C-coupling reactions of 3,3,3-trifluoropropene, 229

hexa-

Exchange reaction, >C=S → >C=O, using hexafluoroacetone, 99
Reactions of hexafluoropropene trimers with this, 133

hepta-

Carboxylato complexes of Zr(IV): formation of bis(heptafluorocarboxylato)Zr(IV) difluoride, 1

poly-

F-19 NMR spectroscopy of polychloropolyfluoronaphthalenes: identification of F exchange products, 7
Nucleophilic polyfluoroalkylating agent R_fI-$P(NEt_2)_3$, novel, 143
Polyfluoroalkoxysulphonyl fluorides, new, 107

per-
Reactions of perfluoroaromatic compounds with ethereal solutions of methylmagnesium iodide in presence of Ag(I) and Cu(I) salts, 85
Regioselective synthesis of 1-methyl-3-hydroxy-5-perfluoroalkylpyrazoles by addition of methylhydrazine to perfluoroalkylacetylenic esters, 123
Synthetic utility of 3-(perfluoro-1,1-dimethylbutyl)-1-propene: synthesis and properties of (perfluoro-1,1-dimethylbutyl) acetic and propionic acids and their salts, 77

Furan
perfluoroorganic Te compounds: syntheses of $C_6F_5TeTeC_6F_5$, $Hg(TeC_6F_5)_2$, $CF_3TeTeC_6F_5$, $CF_3TeC_6F_5$ and pentafluorophenylfurans, 207

Halogen
synthesis and mesomorphic properties of p-(p′-n alkoxycinnamoyloxy) benzylidene-p″-halogen substituted aniline, 159
Hydrogen nitrate
and F: rotational barriers and resonance structures, 379

Iodine
novel nucleophilic polyfluoroalkylating agent R_fI-$P(NEt_2)_3$, 143
reaction of 2,2-dichlorotrifluoro-1-iodoethane with Zn, 17
reactions of perfluoroaromatic compounds with ethereal solutions of methylmagnesium iodide in presence of Ag(I) and Cu(I) salts, 85

Magnesium
reactions of perfluoroaromatic compounds with ethereal solutions of methylmagnesium iodide in presence of Ag(I) and Cu(I) salts, 85
Mesomorphic properties
and synthesis of p-(p′-n alkoxycinnamoyloxy) benzylidene-p″-halogen substituted aniline, 159
Methanols
reactivity of (2-F-alkyl ethylthio)methanols: synthesis of new cationic surfactants, 239
Molybdenum
quadruply bonded dimolybdenum complexes of PF_2S_2: comparison with complexes of PR_2S_2- (R = Et, Me), 429

Nitrenium ions
route to; solvolysis reactions of bis-(difluoroamino)ethylenes, 319
Nucleophiles
no-carrier-added (NCA)aryl[^{18}F] fluorides via nucleophilic aromatic substitution of electron-rich aromatic rings, 189
novel nucleophilic polyfluoroalkylating agent R_fI-$P(NEt_2)_3$, 143

Olefins: see Alkenes

Photochemistry
state-dependent, of highly fluorinated bicyclo[4.2.0]octadienes, 353
Polarity
spectral polarity index: new method for determining relative polarity of solvents, 63
Propionic acid
synthetic utility of 3-(perfluoro-1,1-dimethylbutyl)-1-propene: synthesis and properties of (perfluoro-1,1-dimethylbutyl) acetic and propionic acids and their salts, 77

Resonance structures
and rotational barriers: F and hydrogen nitrate, 379
Rotational barriers
and resonance structures: F and hydrogen nitrate, 379

Silicon
mechanism of direct fluorination of trimethylsilyl compounds, 345
Silver
reactions of perfluoroaromatic compounds with ethereal solutions of methylmagnesium iodide in presence of Ag(I) and Cu(I) salts, 85
Sodium
difluoromethanesulphonic acid: two-step route to free acid from monohydrated sodium difluoromethanesulphonate, 293
structure of Na_2SnF_6, 219
Solvolysis reactions
of bis(difluoroamino)ethylenes: route to nitrenium ions, 319

Spectroscopy
F-19 NMR, of polychloropolyfluoronaphthalenes: identification of F exchange products, 7
spectral polarity index: new method for determining relative polarity of solvents, 63
syntheses and vibrational spectra of chlorofluoroamines, 361
synthesis, ^{19}F NMR spectral studies and antibacterial evaluation of some new F-containing indole derivatives, 169
Sulphur
difluoromethanesulphonic acid: two-step route to free acid from monohydrated sodium difluoromethanesulphonate, 293
effects of fluorination on conformation and bonding in diphenyl sulphides, 45
exchange reaction, $>C=S \rightarrow >C=O$, using hexafluoroacetone, 99
introduction of SCF_3 into aromatic substrates using $CuSCF_3$ and alumina-supported $CuSCF_3$, 249
new polyfluoroalkoxysulphonyl fluorides, 107
quadruply bonded dimolybdenum complexes of PF_2S_2: comparison with complexes of PR_2S_2- (R = Et, Me), 429
reactions of hexafluoropropene trimers with thiols, 133
reactions, some, of trifluoromethanesulphonic anhydride with various metal substrates, 421
reactivity of (2-F-alkyl ethylthio)-methanols: synthesis of new cationic surfactants, 239
synthesis of new perfluorotertiary amines containing geminal pentafluorosulphanyl, SF_5, groups, 407
Surfactants
new cationic: synthesis of; reactivity of (2-F-alkyl ethylthio)methanols, 239

Tellurium
perfluoroorganic Te compounds: syntheses of $C_6F_5TeTeC_6F_5$, $Hg(TeC_6F_5)_2$, $CF_3TeTeC_6F_5$, $CF_3TeC_6F_5$ and pentafluorophenylfurans, 207
Tin
structure of Na_2SnF_6, 219
Trimers
hexafluoropropene, with thiols; reactions of, 133

Zinc
reaction of 2,2-dichlorotrifluoro-1-iodoethane with, 17
Zirconium
carboxylato complexes of Zr(IV): formation of bis(heptafluorocarboxylato)Zr(IV) difluoride, 1
